

Bellevue Tower

Bellevue, Ohio
 Doc#: NSDBLET-LABE.BELVTOWER-2005.08
 HISTORICAL INFORMATION

Map Provided By:
 Toledo L. E. T. Committee (2005)

Things to remember:

When reworking trains @ Rt. 18 on the Fostoria district, the signal for CP Southwest Street on #1 track is a high signal west of the crossing, and #2 track is a dwarf signal east of the crossing.

At CP Klines, the switch to go into or leave Klines yard is a **hand-throw** switch east of the signal.

Speed on both the Toledo connection (to and from Bellevue yard), and the New Haven connection (to and from the Sandusky or Fostoria districts) is 15 mph.

Speed on the connection track from CP New Haven to CP Flat Rock is 10 mph.

Don't forget the dwarf signal for westbound movement from Bellevue yard to Klines yard at MP 53.0.

Distance from Kinney road to Flat Rock road is 6000'
 Distance from Klines road to Mount Pleasant road is 5400' on the Main

Road Crossings
22 22 Bellevue Dispatcher
(260) 493-5452
Ranger Tower Yardmaster
